

ENROLLMENT

Mason enrolled 29,889 students for fall 2006. Undergraduate students comprised 61% at 18,221, graduate students 36% at 10,906 and law students 3% at 762. Enrollment was up slightly (161) over last year's headcount enrollment of 29,728 (table 4.2). Undergraduate headcount is 130 higher than fall 2005, graduate headcount was 11 higher than last year and law headcount was up by 20 over fall 2005. As planned, first-time freshmen headcount decreased by 71 compared to fall 2005.

Total out-of-state headcount increased to 16.6% of the total enrollment compared to 16% in fall 2005. Headcount for full-time students increased to 54.4% of the total, as compared to 53.2% of the total in fall 2005. Mason's one-year persistence rate for the full-time, first-time freshmen fall 2005 cohort returning in fall 2006 was 85.9%. Mason's six-year graduation rate increased 1.7% over last year. It was 55.5%, the highest graduation rate to date.

This section includes a detailed account of student enrollment by various demographic features, as well as enrollment by academic division, major and degree. For clarification purposes, some enrollment definitions are listed below.

ENROLLMENT DEFINITIONS:

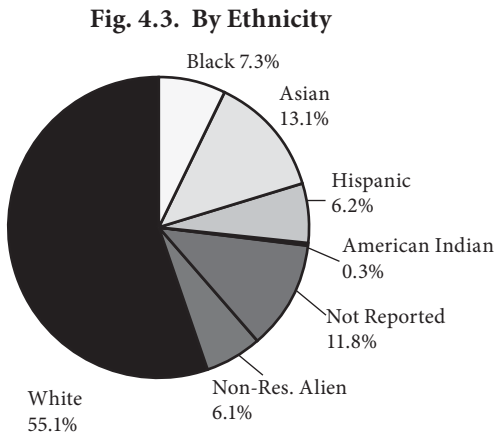

Student enrollment in higher education is described in terms of both headcount and FTE (Full-Time Equivalent).

Student Headcount is the count of individual students whose administrative records indicate that they were registered in a credit-bearing course as of the university's enrollment census date for each semester.

Student FTE is calculated by dividing students' total credit hours by a nationally accepted full-time credit load. The divisor is 15 for undergraduate and law students and 12 for graduate students. Student FTE is calculated each semester.

Full time student except in the School of Law, an individual student is classified as full-time if he or she maintains at least 75% of the standard full-time course load (i.e., 12 undergraduate credits, 9 graduate credits). Law students are classified according to whether they enroll in the full-time or the part-time program, regardless of how many credit hours they maintain.

PERSISTENCE AND GRADUATION RATES

In the last ten years, there has been significant improvement in George Mason's first-year student persistence rates for the first-time, full-time, baccalaureate degree-seeking cohorts. For the 2005 cohort, the 1st year persistence rate is 85.9%. The six-year graduation rate for the 2000 cohort is 55.5% (table 4.17).

Minority students tend to have higher persistence rates than the university's average. For the 2005 cohort, the university's one-year persistence rate is 85.9% as shown in Table 4.17. The same rates are 92.7%, 87.6% and 87.4% for Asian, Black and Hispanic respectively (table 4.19). The tables in this section provide a brief summary about graduation and persistence rates at George Mason.

2005	2,458	85.9				

1. Student persistence rates are based on fall census student enrollment data.

2. Persistence rate is the percentage of first-time, full-time freshmen in a given fall semester who returned to the institution in a subsequent fall semester. For example, the "one-year persistence rate" for fall 1997 first-time freshmen cohort is the percentage of fall 1997 first-time freshmen who returned for fall 1998.

PERSISTENCE RATES FOR VIRGINIA HIGHER EDUCATION INSTITUTIONS

Table 4.20 represents persistence rates, fall 2005 headcount and SAT scores of public four-year colleges and universities in Virginia. The following persistence rates were reported to U.S. News and World Report Best College Survey. The percentages listed are an average rate of the data the institutions reported during the past 4 years.

The headcounts listed are for fall 2005 and have been reported by the State Council of Higher Education for Virginia (SCHEV). The SAT scores presented here are the sum of the scaled scores of Reading and Math sections. The SAT scores are from Institutional Characteristics reports submitted to the Integrated Postsecondary Education Data System (IPEDS).

PERSISTENCE RATES FOR SCHEV APPROVED PEER INSTITUTIONS

This list of 24 peer institutions is approved and maintained as a benchmark for targeting comparative data by the State Council of Higher Education for Virginia (SCHEV).

The following persistence rate data were reported to U.S. News and World Report Best College Survey. The percentages listed are an average of first-year persistence rates reported during the past 4 years. The data are sorted by persistence rates, highest to lowest.

The fall 2005 student headcount figures are from enrollment reports submitted to the Integrated Postsecondary Education Data System (IPEDS).
